FOREWORD

It is our pleasure once again to offer an interesting selection of numismatic material — coins that should appeal to every collector.

We would like to point out to new bidders, as well as to old, that an **auction sale** is not an **approval sale.** The items listed in this catalogue may be examined before bidding. There will be no returns accepted without our written permission.

The estimated prices serve only as a guide. In the past it has been a practice to bid quite a bit below estimates; because of the unprecedented demand for coins, these low bids hardly ever are successful. Competition is keen for good material. We suggest you bid with the purpose in mind of acquiring the coin.

We have one of the finest stocks of numismatic material in the country, including many rarities in copper, silver and gold.

Please send a want list with your bid sheet for our immediate attention.

Whether "BUYING" or "SELLING" it will be worth your while to contact us . . . .

Thanks,

ABNER KREISBERG

and

JERRY COHEN

U. S. ROLLS

The roll (Market) has been one of the most surprising and active in the entire numismatic field these past few months and record prices have been rung up in all series from the Cents thru the Dollars. We are not placing any estimates because in 30 days, from the time this catalogue is in the mail, till the day the sale ends, the prices quoted or suggested would be obsolete in most instances. If you want further information, or price guidance on any roll(s) in particular please call or write to us now.

PATTERNS STRUCK FOR THE MONETARY COMPETITION OF 1848

The workmanship of the cream of the French designers of the period. Attributions cited V. G. — **V. Guilloteau** Monnaies francaises, Colones 1670–1942, Metropole 1774–1942, Versailles 1942. THE JIM WILLIAMS COLLECTION

The cataloguer has known "Jim" for 15 years and has watched this gentleman assemble one of the most difficult groups, the Balkan Countries, to the present state of virtual completeness. The references cited in this group are as follows: Y or YEO (Modern World Coins, by Yeoman); WR or CW, Wayte Raymond's "Coins of the World" 19th century 2nd edition 1953; GUM "Handbuch Der Polnischen Numismatik", Graz reprint 1960; "STR" or Stroncz: ("Dawne monety Piastrow i Jagellon") Piotrkow, 1883; H.CZ: "Catalogue de la collection medailles et monaies polonaises" by E. Hutten–Czapski: Vossb. or Vossberg: German reference text dealing with coinage of the City of Elbing (Elblag). For Latvia, Lithuania and Estonia "Die Munzen Und Das Papiergeld Estlands, Lettlands, Litauens" by A. Platbarzdis. Terlecki: "The Catalogue of Polish Coins 1916–1958" used for the modern coins and patterns of Danzig and Poland.

It is our opinion that many, many years will pass before another group such as this will be on the auction block, and the collectors in this series I am sure will agree with

us. For many reasons it just has not been possible to fill the wants lists we have received for these coins and now the collector has the good fortune to fill those gaps. The material is accurately graded and conservatively priced.
